

How To Connect Computers & Mobile Devices To The Felician College FC-ADMIN & FC-STUDENT Wireless Network

(rev 7-01-2013)

Notes: **FC-ADMIN** is the wireless network Faculty & Staff can connect to
FC-STUDENT is the wireless network Students can connect to
FELICIANCOLLEGE is the domain that Faculty & Staff have access to
STUDENTS is the domain that Students have access to
USERNAME= Your Felician College e-mail/computer logon username
PASSWORD= Your Felician College e-mail/computer logon password
WiFi MUST BE ENABLED ON YOUR DEVICE TO CONNECT WIRELESSLY

**As of this time these wireless networks are available on the 2nd & 3rd floors of
Sammartino Hall, the Rutherford Cafeteria & the Falcon's Nest**

For Windows 7 & Vista

1. Click the **wireless network icon** in the system tray
2. Select **Open Network and Sharing Center**
3. Click **Set up a new connection or network**
4. Select **Manually connect to a wireless network** & click next
5. Enter the following settings:

Network name field, type: **FC-ADMIN** or **FC-STUDENT**

Under **Security type**, select: **WPA2-Enterprise**

Under **Encryption type**, select: **AES**

6. Check **Start this connection automatically**
7. Check **Connect even if the network is not broadcasting**, then click next
8. Select **Change connection settings**
9. Go to the **Security** tab, select **Protected EAP (PEAP)**
10. Click **Settings...**
11. Uncheck **Validate server certificate**
12. Under **Select authentication method**, select **Secured password (EAP-MSCHAP v2)**

Security Type: WPA2-Enterprise

Encryption Type: AES

Network Protection Mode: Protected EAP (PEAP)

Remember My Credentials must be checked

13. Click **Configure...**
14. Uncheck **Automatically use my Windows logon name and password**, click OK
15. Click **Advanced Settings**
16. Check the box for **Specify authentication mode: User or Computer Authentication**
17. Click **OK or Close** until you get out of all the property windows
18. When the **pop up dialog box** appears over the task bar, click it
19. Under User name, enter your **User ID**
20. In the Password field, enter your **password**
21. Wait approximately 1 minute for the authentication process to complete the connection
22. If you are asked for further information, see the notes at the top of this page

Windows XP

1. From the **Start** menu, select **Settings**
2. Select **Network Connections**
3. Select your **wireless connection**
4. Right click and select **Properties**
5. On **General** tab of the Wireless Network Connections Properties window, check both boxes at the bottom
6. Select the **Wireless Networks** tab
7. Check **Use Windows to configure my wireless network settings**
8. Click **Add**
9. Enter the following settings:
 - Network name** field, type: **FC-ADMIN** or **FC-STUDENT**
 - Under **Security type**, select: **WPA2-Enterprise**
 - Under **Encryption type**, select: **AES**
10. Click the **Authentication** tab
11. Select **Enable IEEE 802.1x authentication for this network**
12. Select **Protected EAP (PEAP)** as the **EAP Type**. Uncheck all other boxes.
13. Click **Properties**
14. Uncheck **Validate server certificate**
15. Select **Secure password (EAP-MSCHAP v2)** under **Select Authentication Method**
16. Check **Enable Fast Reconnect**
17. Click **Configure...**
18. Click **OK** on all open windows until you are at the Network Connection window
19. If you do not connect to the campus wireless network, right-click the wireless connection, select **Disable** and then **Re-enable**
20. Once you have successfully connected, the **pop up dialog box** appears over the task bar, click it
21. Under User name, enter your **User ID**
22. In the Password field, enter your **password**
23. Under Logon domain, **leave it blank**
24. Click **OK**
25. Click the **pop up dialog box**
26. Click **OK** to accept the certificate

Mac

Note: These are basic directions for the various Mac versions. If you require further assistance please call the Felician College IT Helpdesk @ 201-559-6165
