

How to setup your Smartphone or PDA for Felician e-mail access

Due to the fact that different model phones and PDA's have distinct setup screens I'll provide a generic overview of the connection settings.

Here are the settings to the typical questions you may be asked:

If asked what kind of e-mail account to set up use either:

Outlook Web Access or Exchange Active Sync

For iPhone select "Add Account". For type of account select "Other" and then "Exchange". The additional settings you need are below.

There may be an option to enter your settings manually. If so, use the following information:

Username: (Your Felician network\e-mail login name) *typically lastname+first initial*

Password: (Your network\e-mail password)

LoginID: (Your Felician network\e-mail login name) *typically lastname+first initial*

Domain: For student accounts use: students.feliciancollege.local

For faculty/staff accounts use: feliciancollege.local

Server name: For student accounts: mail.students.felician.edu

For faculty/staff accounts: mail.felician.edu

URL (for students): May be one of these 3 formats (reference their example on the setup screen).

<https://mail.students.felician.edu/owa> or

<https://mail.students.felician.edu> or

mail.students.felician.edu

URL (for faculty/staff): May be one of these 3 formats (reference their example on the setup screen).

<https://mail.students.felician.edu/owa> or

<https://mail.students.felician.edu> or

mail.students.felician.edu

SSL: yes
